Under the Auspices of the Palestinian President
His Excellency Mahmoud Abbas

Second Palestine International Water Forum
18th - 21st July, 2020 Ramallah - State of Palestine

The Palestinian Water Authority is pleased to announce the Second Palestine International Water Forum under the theme

“Water Security in Dynamic Environments...Together We Can”

The Forum will provide a unique multi-stakeholder platform where water experts, policy creators and decision makers from around the world can work together to find joint solutions for challenges affecting the ability of nations to achieve water security. It will be an opportunity to discuss the diverse facets of water security in dynamic environments and its relation to climate change, sustainable development and water technological advancements.

The main objective of the forum activities is to collect efforts toward achieving water security for life and development for future generations.

The forum’s sessions will focus on developing water resources management and achieving sustainable development goals. The sessions will also address the non-conventional water resources on a wide spectrum to highlight the role of these resources in bridging the water demand gap in addition to showcasing advanced innovation and technologies affecting the environment, ecosystems and sustainable development. The forum will provide a vicinity to focus on youth and creativity through special activities.

A special exhibition will be organized, in parallel with the Forum to allow for a unique occasion for all specialized companies and institutions to display their latest technologies, products, and services, in the field of water and sanitation as well as water and energy nexus. Moreover, several excursions to Palestinian historical and cultural sites as well as water projects will be organized.

Please save the date, we will be honored to welcome you as a precious participant in the Second Palestine International Water Forum.
